MAKE SOMETHING BETTER

THE WELD BOOK

THIS ISSUE OF THE WELD BOOK SUPERSEDES ALL PREVIOUS EDITIONS

Hours of Trading
Monday - Friday: 7.00am - 5.00pm

Deliveries
All orders over £50 nett placed by 2pm for ex-stock items are normally delivered next working day, free of charge, in our local area. Due to the weight of Mild Steel (A18) MIG wire, please allow two working days and a carriage charge (TBA) for out of local area deliveries. (Subject to status).

Collections
Goods can be picked up from our collection counter. Please collect before 4pm.

Payment Terms
We accept most major credit cards, cash (and cheques for trade account holders). Certain cards may incur a handling charge, please ask for details. Credit accounts are available on request subject to reference and status checks.

Conditions of Sale
All sales are subject to our Standard Terms & Conditions of Sale, a copy of which is available on request. All prices ex.VAT. E & OE.

PWP Industrial
Jaguar House, Shuttleworth Road, Bedford MK41 0EP

Contents

Welcome to the 50th issue of The Weld Book, aimed to keep the welding and manufacturing industry up to date with the latest products and prices available.

PWP is one of the region's leading suppliers of welding equipment and consumables. We are known for our extensive knowledge and hands-on expertise in providing you the customer with the right product for the task in hand. If you cannot find the item you are looking for, simply call our sales team on 01234 345111.

THEWELDBOOK | Profile Cutting | December2019

WE HAVE PROBABLY THE LARGEST STOCK RANGE OF PROFILE CUTTING CONSUMABLES IN THE UK

Profile Cutting Consumables

MagicWave 230i

NEW FRONIUS TIG RANGE

- 3 - 230A output
- Digital control TIG AC/DC power source
- Lightweight and easy to transport
- LCD colour display
- Intuitive and self-explanatory menu navigation
- Pulsing & Job Storage Options
- 110/230V Single Phase Input

Accupocket

BATTERY WELDER

- Weld anywhere
- 6 x 3.2mm welding rods on a single charge
- Can run off a small 2kVA generator via the charger
- Easy to operate
- Weighs only 11Kg including battery

TransSteel 2200

- 110v/230v Single Phase Input
- Advanced digital control MIG welder
- 10A to 230A
- Multi process
- Robust, small & portable
- Easy to operate
- Weighs only 15.5kg

MagicWave 2200 Job

- 220A at 17.4Kg
- Digital control TIG AC/DC power source
- Robust construction
- Softest possible, highly stable arc
- Very low noise AC welding & pulsing
- Self-explanatory mode of operation
- Welds low & high-alloy steels, aluminium and non-ferrous metals
- 230 Volt input

Optional modular water-cooler unit

TransPocket 180MV

- 110v/240v
- 10A to 180A
- Adjustable Hot-Start
- Lift Start TIG Function
- IP23 Protection
- Quick-Change Primary Lead
- Weighs only 8.9kg

TransTig 1750 Puls

- 170A at 9.1Kg
- Microprocessor controlled DC TIG inverter welder
- Robust, small & portable
- Welds low-alloy and high-alloy steels
- Extremely stable arc
- 230 Volt Input

FRONIUS ...SHIFTING THE LIMITS

MagicWave 3000 Job

- 300A output
- Digital control TIG AC/DC power source
- Robust Construction
- Very quiet yet highly stable arc
- Very low noise pulsing
- Self-explanatory mode of operation
- Welds low-alloy and high-alloy steels, aluminium and non-ferrous metals
- Cold wire control and automated use
- 400 Volt 3 phase input

Optional modular water-cooler unit

TransSteel 3500 C

- 350A output
- Digital control MIG welder
- Perfect steel welding
- Compact design
- Rugged & reliable
- Very easy to operate
- Ideal for structural steel fabricators
- 400 Volt 3 phase input

HD G5-01VC

Adjust your headshield... not yourself

G5-01 HD ADF System Complete (All prices in £ sterling ex.VAT)			
Code	Description	List £	Our Price £
51-673	Speedglas G5-01VC Variable Colour Adflo System	1459.21	*1049.00*

➔ The Speedglas™ G5-01VC Variable Colour Adflo System suits most types of arc welding. The big (104 x 170 mm), clear protective visor is curved, with excellent views up, down and peripherally.
➔ *Natural Colour Technology* makes the filter view seems lighter, more detailed and colourful.
➔ The innovative G5-01 helmet duct system lets you direct the airflow to either your face, visor or somewhere in-between. Re-configure your helmet to just the right coverage for your head, neck, and shoulders.
➔ With the right type of filter, the Adflo respirator effectively protects you against both particles and gases – all in one system.
➔ The slim profile and ergonomic design makes it even more lightweight and easier to go into tight welding spaces.
➔ The G5-01 ADFs are Bluetooth enabled: with the 3M™ Connected Equipment App, users get access to additional functionalities, statistics and documentation.

➔ Task Light is now available as an optional accessory kit for the Speedglas™ G5-01VC Variable Colour Adflo System. It simply clips on to your headshield and is powered by the Adflo battery.
The kit includes Task Light, protection plate cable/mounting parts and long cable. Excellent for lighting up dark working environments.

G5-01 HD ADF Task Light Accessory (All prices in £ sterling ex.VAT)

TPSi

320A, 400A & 500A versions available

- Large plain text touch screen, can be used with gloves on!
- Future-proof, easily upgradable!
- Superior Welding properties!
- Even Less Spatter!
- Perfect ignition every time!
- Nothing else comes near!

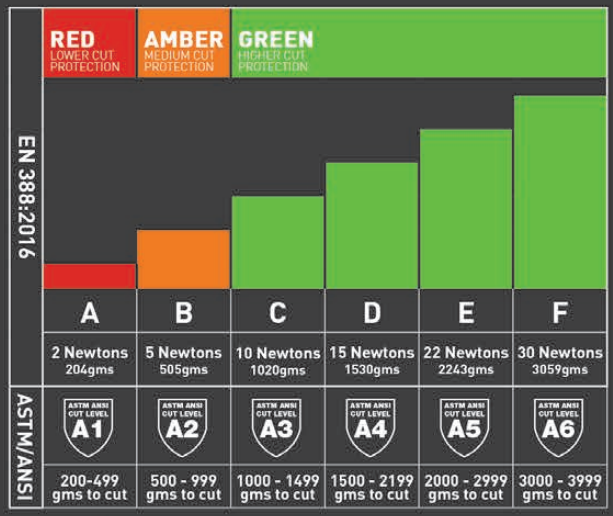
NEW GLOBAL STANDARDS
HAND PROTECTION EXPLAINED



ASTM-ANSI

ANSI/ISEA stands for American National Standards Institute / International Safety Equipment Association. This is a US voluntary industry consensus standard only. ANSI/ISEA 105-2016 is the latest revision which now specifies only one single cut test method can be used (ASTM F2992-15).

The cut test works exactly the same for both standards (ANSI and EN ISO 13997) but it's the way they're measured that differs. While the A1-A9 scale is comparable to the EN 388 A-F levels, ANSI/ISEA extends their scale by three levels to 6000 grams to report high cut materials more accurately.
